Why Should You Sponsor?

Businesses across America are learning more each day about the dramatic opportunity presented by the "Boomer and Beyond" generation. The oldest boomer is turning 65 in 2011 and there are approximately 78 million more boomers rapidly aging from the post-WWII Baby Boom.

More builders are focusing on designing, developing and building for people 50+. More towns, cities and states are seeing the value of attracting retirees to come live and spend their wealth. More marketers and service providers are seeing gold in grey as America becomes older as a nation than it's ever been.

In just a few short years, the number of Americans aged 65+ will outnumber those American children aged 5 and younger for the first time in history. In the next 20 years, the number of people aged 65+ will actually double in America. And, currently, those over aged 50 still control over 77 percent of all the financial wealth in America. The numbers are clear: building for, attracting, marketing to and serving the 55+ age segment promises to be the fastest-growing segment of American business.

In the past 10 years, NARA has not only hosted 10 Annual Conferences for Members and Retirement Industry Professionals, the organization has fostered a number of business relationships and contacts. NARA has been quoted by many regional newspapers, including the Charlotte Observer, The State, the Dallas Morning News, and the Atlanta Constitution, but also national media outlets like USA Today, Forbes magazine, Money magazine and Fox Broadcasting's popular Fox and Friends morning program.

Being a member and a sponsor of NARA means you are associated with a quality organization that assists bringing businesspeople together who are committed to doing more business with Americans aged 55+.
